Now in our 5th year of making quality Grips and Parts for the 1911 and other fine handguns!

In September 2R bought the lion's share of remaining inventory and production equipment of the former Ajax Custom Grips. This purchase has increased our production capabilities and is enabling us to expand our product line. In the coming months we will also make the remaining stock of Ajax branded grips available to our customers.

Coming Soon: The new 2R Line!

Don't forget the Second Amendment Wristband which is only available from 2R!
